QUESTION 2

There are TWO parts. Answer all questions.

2.1   Describe the name of each Photoshop CS6 layer features and its function base on Figure 1 below.   (20 marks)

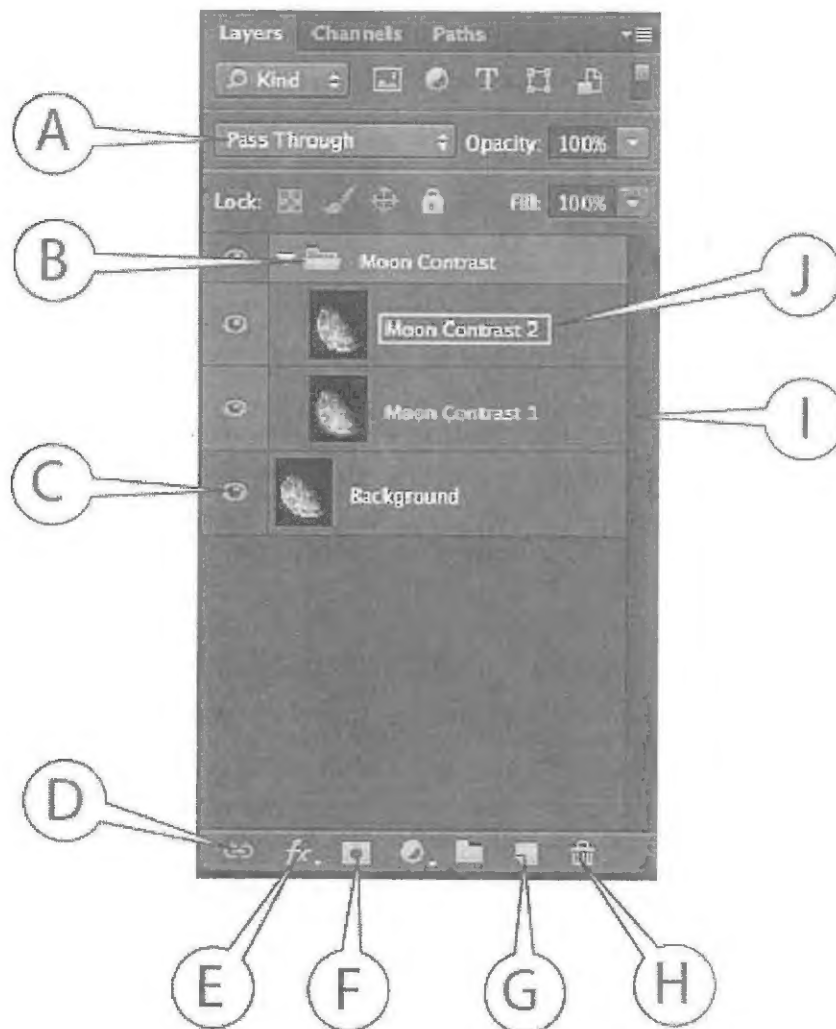

Figure: 1

Continued…

2.2   You were assigned to work on a poster design using Photoshop. The poster is required to be an A3 paper (11.7 inch × 16.5) inch portrait format. State the considerations of setting up a new document page for best printing process and output. List out your document setting on the 'New' menu below base on figure 2.

   (5 marks)

Figure: 2

QUESTION 3

Explain the features usage and consideration found in Photoshop. Answer all questions.

3.1   What are the considerations in saving image editing with a .psd file format? State THREE reasons.

                                                      (5 points)

3.2   Why do you need to hold down Shift keystroke is while using image transformation:
                                                    (4 points)
     i)   Scaling.
     ii)   Rotate.

Continued...

3.3 Explain how selections are made through the choices of selection tools listed
   below.
                               (6 points)
   i) Magic Wand.
   ii) Magnetic Lasso.
   iii) Rectangle Marquee.

3.4 There are two types of raster file compression algorithm. Explain the two main
   characteristic of compression stated below.   (10 points)
   i) Lossless compression.
   ii) Lossy compression.

QUESTION 4

Answer all questions.

Describe the processes base on the situation below:

4.1 In given situation that you were given a portrait image of a person where he/she
   has few pimples on the face. Explain the process on how to remove the pimples
   on the face to make the skin smoother.   (5 points)

4.2 State the steps needed to create a displacement map in Photoshop and how do you
   apply the displacement map on an image.   (10 points)

4.3 In given situation that you need to design a vector logo and composite it in your
   poster design in Photoshop. Explain the steps on how to import a vector from
   Illustrator to Photoshop, and describe how do you insert or change the color of the
   vector in Photoshop.   (10 points)

End of Page.
